

## Be Very Critical.

YOU don't have to make any allowances for the ready-for-service feature of Calvert Clothing. You'll suit us best if you put it on the same footing in your consideration as the garments that come from your most exclusive custom tailor. In point of fact, there isn't a tailor in Washington who can show you the assortment of Woollens in the piece that we can show you made up; and when it comes to the model, and the make, and the fit—no taking anybody's "say-so"—you can see for yourself. Calvert Clothing is just right. See if it doesn't appeal to you as being so.

### MAN'S CURIOSITY.

We're questioning the distant stars, to lay their secrets bare; do human beings live on Mars? Is Saturn round or square? We dig into the mystery of all the universe, not knowing if results will be a blessing or a curse. When I was but a little lad, as beautiful as lard, when all the world was young and glad, I played about the yard, and saw the birds in joyous flight, the gorgeous flowers in bloom; then all the days were passing bright, and night gave naught of gloom. One day, while resting 'neath a tree, to dodge the noontide heat, a wondrous bird camped down by me, upon the garden seat. I was not satisfied to gaze upon its wings of gauze; I felt that I its form must raise, and hold it in my paws. I was not satisfied to view its beauties from afar; I was like grown up people who must dig into a star. And so I seized it—deed of shame! And there was none to check! And then a streak of lightning came, and hit me in the neck. They put me in my little bed, and doped and poulticed me; "that little bird," my grandma said, "was but a bumble bee."

### HOUSE PASSES HOBSON BILL.

**Prohibits Discrimination Against Uniform of Service by Theaters.**

After an hour's debate, all favorable to the measure, the House yesterday passed the Hobson bill, prohibiting any discrimination against the uniform of the service by the theater proprietors of the District, the Territories, or insular possessions controlled by the United States.

The race question threatened to be injected into the issue at one time through a proposed amendment by Representative Sims, of Tennessee. He wanted to insert the word "white" in the bill, making it read that no white person wearing the uniform should be denied admission solely because of that uniform.

Representative Hobson made it plain that the bill would be of no benefit to disorderly or otherwise objectionable persons.

Representatives Hull, Kiefer, Dawson, and Hobson spoke upon the merits of the bill.

### Greely Upholds Peary.

Representative Allen, of Maine, who introduced one of the bills for the promotion of Commander Peary, has received from Brig. Gen. A. W. Greely a letter correcting an impression that he was hostile to Commander Peary's advancement. He writes: "While I never received any Congressional recognition myself, I think it is a sound policy of encouragement to young Americans."

### Tariff Negotiations Smooth.

Secretary of State Knox told a delegation yesterday that the tariff negotiations with Canada were proceeding smoothly with every prospect of a satisfactory adjustment. The delegation was composed of about 100 merchants and manufacturers, who are engaged in business along the Canadian border from Duluth, Minn., to the Atlantic coast.

Senator Bristow, of Kansas, offered an amendment to the railway bill yesterday, which he will seek to have incorporated in the measure. The amendment provides that all cases brought in a Federal court to test the action of State officials in repudiating the action of common carriers shall be brought in the United States Circuit Court, and that such cases must be considered by not less than three circuit judges.

## KHEDIVE TO GREET ROOSEVELT TO-DAY

Former President Will Reach Cairo This Morning.

ELABORATE PLANS ARE MADE

Party Will Visit Pyramids, Temples, and Tombs—Will Reach Alexandria Tuesday, and on Wednesday Will Sail for Naples—People of Assiout Disappointed at Departure.

Cairo, March 23.—Col. Roosevelt and his party left Luxor to-night, and they will travel direct to this city. When they arrive they will stop at Shepherd's Hotel. Great disappointment is felt by the people of Assiout. It was hoped that Col. Roosevelt would break his journey there and take part in the opening of the new American mission.

Extensive preparations had been made to receive him, but as the Khedive had arranged to receive him in special audience to-morrow afternoon, it was impossible for him to delay his arrival. Shortly after he is received by the Khedive at the palace, his majesty will return the visit at the American agency.

The Khedivah will receive Mrs. and Miss Roosevelt and Mrs. Straus, wife of the American Ambassador at Constantinople, who, with her husband, arrived here Monday especially to meet Col. Roosevelt.

### Will Visit Pyramids.

On the same evening the party will proceed to the pyramids and spend the night at the Mans House. Great festivities by moonlight have been arranged in their honor. On Friday morning an excursion will be made to Sakharah. The party will go to Bedrashin on Nubar Pasha's steamer, taking lunch on board. Then they will visit Memphis, the tombs, the Temple of the Bulls, and other temples, and dine at the British agency. On Saturday they will visit the Alayher University and the bazaars, and will dine at the American agency, where a reception will be held afterward.

On Sunday Col. Roosevelt will spend a quiet day with Lieut. Gen. Sir Francis Wingate, sirdar of the Egyptian army. Monday he will receive various deputations and will lecture at the Egyptian University in the afternoon. Afterward he will inaugurate the new school for girls, belonging to the American Mission. In the evening, Prince Fouad will give a banquet in his honor. On Tuesday Col. Roosevelt will take luncheon with Count Halzfeld, the German diplomatic agent. He will go to Alexandria in the afternoon and the next day will embark for Naples. The keenest interest is being manifested in the former President's visit to Cairo, where a splendid reception awaits him by his fellow-countrymen, with whom Cairo is now crowded.

### Talks at Mission School.

Col. Roosevelt's visit to the American Mission School here to-day was for the public, at any rate, the most interesting incident of his stay at Luxor. A great number of native children, lined up in rows, sang for the visitors. Their dark skins and bright eyes contrasted prettily with their gay garments, making an attractive picture.

Many native women were present, and they peered with eager curiosity above their veils at the "American King," always drawing their veils closer if they saw any of the men accompanying the visitors gazing at them.

Col. Roosevelt addressed the gathering in a happily worded epigrammatic speech. He said, among other things, that, as an American, he felt mightily pleased to see what his fellow-countrymen and countrywomen were doing to help Egypt along the path of progress on which she has been traveling for the last quarter of a century. He was especially glad that so much attention was being devoted to educating girls.

It was going to be more and more realized that it was impossible to raise one part of humanity while neglecting the other. It was idle to try to improve man unless woman was uplifted at the same time, and this was not a mere matter of duty and principle. It was also a matter of self-interest. Man could not rise if woman was a drag on him.

Col. Roosevelt seems to fear from the news reaching him that the impression is growing that he is traveling in a sort of official capacity as a representative of the United States. He wants the public everywhere in Europe to recognize that he is traveling solely as a private citizen.

### MASSEUR FOR SENATORS.

The United States Senate is going to have a professional masseur. He is to be in charge of the luxurious bathing rooms in the new marble office building provided for the use of Senators, where arrangements have been made for Russian, Turkish, and all kinds of baths.

The legislative, executive, and judicial appropriation bill contains a provision which sets aside an appropriation of \$1,800 annually to be paid "an attendant in charge of the bathing rooms, who shall be a professional masseur."

This attendant, who is to work on the masses of Senators, is to have two assistants, who will receive \$720 each annually.

### CONGRESSIONAL BRIEFS.

Senator Nelson (for Senator Freie) and Representative Greene yesterday introduced the bill to simplify the laws governing the equipment of motor boats.

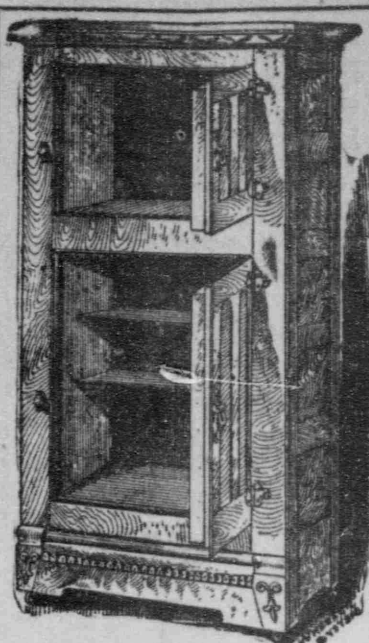

Hearings will be given on the proposed legislation to remove the tax on oleomargarine, under a decision of the House Committee on Agriculture.

The Weeks bill, appropriating \$11,000,000 for the acquisition of lands at the head waters of navigable streams as a means of conserving the water supply of the country, was ordered reported by the House Committee on Agriculture.

The takers of the country will be given an opportunity to voice their opposition to the Haugen canalizing bill, under a decision of the House Committee on Agriculture. The bill requires canners to label the cans they ship, specifically stating the date on which the contents were placed in the can.

## TAFT SAVES CLERKS

Intercedes for Employees Who Are Slated to Go.

TO BE GIVEN NEW POSITIONS

**Vacancies in Other Departments Left Unfilled So Seventy-seven Clerks in Sixth Auditor's Office and 100 Clerks in Treasury Branch May Not Be Dismissed.**

President Taft has personally interested himself in behalf of the seventy-seven employees of the Sixth Auditor's office, whose services will not be required in connection with post-office accounts after June 30 next.

He has also interceded in behalf of the one-hundred-odd employees of the issue division of the Treasury Department, who were scheduled for dismissal on the same date, and from present indications not one of them will be deprived of employment.

### Vacancies Not Filled.

For some time past, upon order of the Secretary of the Treasury, vacancies as they have occurred in the service by resignation, transfer, death, or discharge have not been filled, and at the present time more than eighty places have thus been obtained, to which many of the old employees of the two branches of the department will be transferred at the appointed time.

Similar action between now and June 30 will greatly add to the number that can thus be provided for, but there would still remain a portion of the list whose discharge seems to be inevitable.

When these facts were laid before President Taft he is said to have personally dictated a letter to each of the heads of the several departments advising them of the situation and requesting that they, instead of calling upon the Civil Service Commission for lists of eligibles to fill vacancies as they might occur, communicate with the Secretary of the Treasury and arrange for the transfer of an employee from one of the two branches involved wherever a suitable man could there be found for the position to be filled.

### Numerous Transfers Made.

Acting upon these instructions a number of transfers have already been made and others are contemplated. Except for these transfers, however, the forces of the Auditor's Office and of the Division of Issue will remain intact until June 30. Should positions be lacking on June 30, which now seems unlikely, the excess employees will have to be discharged, but in such an event the employees so discharged would be eligible under the civil service rules for reappointment, without examination, at any time within a year, and under the plans now contemplated they would be reappointed almost immediately.

### BULLDOG BITES BOY.

**Daniel Sullivan Victim of Canine While at Play.**

Attacked by a bulldog while playing with several companions last night, Daniel Sullivan, twelve years old, was bitten several times in the face and nose before the animal could be driven away.

The boy was playing in Ninth street between M and N streets, when the dog ran among the group. The children scattered, but the Sullivan lad could not evade the dog's rush. When the teeth of the dog tore his flesh, the boy screamed and several men ran to his assistance.

Sullivan was assisted to his home at 1406 Columbia street northwest, where his wounds were cauterized by Dr. H. C. Duffey, of 329 O street northwest. Police of the Second precinct captured the dog. The animal is said to belong to Ella Johnston, a negro, of 1229 Ninth street northwest.

### BIG MERGER NOT EXPECTED.

**Senator Gorman's Power House Bill Introduced by Request.**

Senator Gorman has introduced a bill in the State senate of Maryland which provides for the construction of a big electric power house at or near Little Falls of the Potomac.

The bill authorizes the merger of the Potomac Power Company, the Potomac River Power Company, the Montgomery Power Company, the Norfolk County Industrial Company, and other organizations which supply power for electric roads through Pennsylvania, Virginia, and Maryland. It is believed the chances of the bill being passed is rather remote, as the bill was introduced only by request.
